SUMMARY

Experienced Chief Pharmacist with a demonstrated history of working in the pharmaceuticals industry. Skilled in Pharmaceutics, Clinical Quality and Regulations, Sales, Strategic Planning, Leadership, Team Building. Strong healthcare services professional with a Master's degree from Lithuanian University of Health Sciences. I consider myself as a loyal, sociable, stress resilient, results oriented and highly responsible person, who is able to work independently, as well as manage and lead a team. During the 6 years I have spent in this industry, I have developed good communication and fast problem-solving skills, learned how to lead a team of 6 subordinates, how to motivate them and challenge the team to commit to the goal and drive for results and efficiency. Currently I work in the Department of Clinical Pharmacology at Vilnius University Hospital Santaros Klinikos, where I consult and assist on biomedical research related queries. I also participate in international EU funded Joint Action CHRODIS PLUS, where I act as a project specialist in Lithuania. In CHRODIS PLUS, 42 partners representing 21 European countries collaborate to implement pilot projects and generate practical lessons in the field of chronic diseases. I have recently joined Nordic Society of Paediatric Haematology and Oncology (NOPHO) Pharmacist group and I am keen on collaborating with our colleagues from Northern Europe. Vilnius University Santaros Childrens Clinic currently translated NOPHO Extravasation Guideline in local language and is using as a main guideline for extravasation. During 2018 our institution plans to set up Centralized cytotoxic reconstitution unit, which is an essential component of hospital pharmacy services.

PROFESSIONAL EXPERIENCE
